This webinar is being recorded; all materials will be available within a week of recording
Our mission:
We lead the collaborative movement to ensure every Floridian achieves an education beyond high school and a rewarding career.

Our vision:
A Florida working together, where education is the pathway to economic mobility for all.
FCAN’s Work

Research and Data FCAN publishes research and data on evidence-based practices and policy opportunities to strengthen Florida’s talent pool.

Local college access networks (LCANs) LCANs support 82% of the state’s population. These organizations are made up of community leaders who come together to create solutions and partnerships to support local talent development.

Statewide Initiatives FCAN coordinates 4 College Ready Florida initiatives that provides schools and community organizations resources to help students continue their education after high school.
7 Conditions for Success

**Opportunity for everyone:** To build a talent-strong economy, all Floridians need access to a postsecondary education and the supports to complete it.

**Clear information and guidance:** Students and families need exposure and counseling early and often to make informed decisions about their futures.

**Affordable:** Postsecondary education needs to be within everyone’s financial reach, regardless of household income or life circumstances.

**Multiple pathways to success:** Floridians benefit from multiple learning opportunities for academic achievement and career advancement.

**Lifelong learning:** No degree or credential is “one and done;” Floridians need to prepare for career changes through continuous learning.

**Effective use of data:** Transparent access to data on education and economic outcomes, especially for Florida’s diverse populations, helps achieve our goals.

**Community collaboration:** When community partners work together toward a shared vision, they remove barriers, build a robust workforce, and improve the quality of life for their regions.

Bill DeBaun
Director of Data and Evaluation
National College Attainment Network
Where Do Students Go?
How Do You Know?
Options for Data-Starved Districts
Hi!
I’m glad to be here!

Bill DeBaun
Director of Data and Evaluation
NCAN
debaunb@ncan.org
TODAY’S GOALS

1. Explore options for accessing data that shows where students go after high school

2. Understand how to leverage this data to better understand students’ postsecondary choices and how that differs from their intentions

3. Leave plenty of time for your questions and thoughts
NCAN: WHO WE ARE, WHAT WE DO

NCAN PURSUES ITS MISSION BY BUILDING NETWORK CAPACITY, ADVOCATING FOR POLICY SOLUTIONS, AND SUPPORTING SYSTEMS CHANGE

**Build network capacity**

Bolster the skills and competencies of college access and success leaders and practitioners through professional development, news from the field, data, and tools.

**Advocate for policy solutions**

Advocate for equitable college completion rates by amplifying a range of policy solutions, mobilizing members, and leveraging student voice.

**Support systems change**

Help school districts, higher education institutions, and other community stakeholders to adopt effective strategies for students.
TALENT IS EVERYWHERE, BUT OPPORTUNITY IS NOT.

Figure A. College Enrollment Rates in the First Fall after High School Graduation, Class of 2018, Public Non-Charter Schools
THAT’S ESPECIALLY TRUE IN THE AGE OF COVID

The high school class of 2020’s immediate fall postsecondary enrollment fell nearly 7%, but declines were inequitable. High schools with more students of color and students from low-income backgrounds saw larger decreases.

Percent Change in Immediate Fall Enrollments by High School Characteristics, Classes of 2019 and 2020
WHAT IS CURRENTLY YOUR BIGGEST HURDLE TO TRACKING POSTSECONDARY OUTCOMES DATA?
Some key questions all districts, schools, and programs should be able to answer:

• How many of my students enroll after high school graduation?
• Do my students who get to college persist?
• Do my students who get to college complete a degree? If so, what kind?
• To which institutions do my students most often matriculate?
• How long does it take my students to complete a degree?
• When are my students stopping out?
• Which sectors of schools are my students attending?
• Which specific schools are my students attending?
• How do these vary by students’ demographic characteristics?
HOW DO YOU CURRENTLY TRACK STUDENT OUTCOMES?
FOUR PATHWAYS TO MEASURING POSTSECONDARY OUTCOMES

1. National Student Clearinghouse StudentTracker
2. State Data Portals
3. Direct Relationships with Institutions
4. Student Surveys

Level of Sophistication
“TIME-INTENSIVE, LESS RELIABLE, BUT ALL IN-HOUSE”: STUDENT SURVEYS

PROS:
- Inexpensive ($)
- Easily adapted to local context/school needs
- Relatively easy to build out and analyze

CONS:
- Time-intensive (staff time, time to administer, time to analyze)
- Less scientific/reliable
- Prone to sampling bias
STUDENT SURVEYS

• Lots of districts and schools use senior exit surveys, but how do they make use of the data?
• Administer early; more time = more time to act.
• How should we collect these data?
  • Collecting electronically means less data entry, but more difficult to tell who completed (and make sure you have as complete a data file as possible)
• Key items:
  • Understand students’ postsecondary intentions (i.e., type of pathway)
  • Identify intended institution
  • Key milestones (e.g., FAFSA completed), pain points (e.g., getting to campus, paid housing deposit)?
  • Level of confidence about plans (for triaging summer melt support)
  • Verify birthdate, legal name (in case you want to verify with NSC later)
  • Confirm contact information (email, phone number)
STUDENT SURVEYS

• All of this is the “pre-” to get to the “post-”, need to verify what happened to students.
• Depending on capacity/approach:
  • Call a random sample of seniors in fall and spring to hear if they enrolled
  • Issue a post-survey (and be sure to collect name so you can link to results before graduation)

• Real level up: administer a postsecondary intentions survey every year starting in 9th grade.
  • Offers the chance to watch the trajectory of students’ aspirations and plans
  • Can triage appropriate supports to students based on their aspirations, academic profile, and more

• Advantage: doesn’t rely on outside data sources. Disadvantage: unreliable.
STUDENT SURVEYS: RESOURCES

Sample surveys/items:
- Broward County Public Schools
- I Know I Can (Columbus, OH)
- College Now Greater Cleveland
- College Advising Corps Data Collection Tool
“MAKING PROGRESS ONE-BY-ONE”: DIRECT RELATIONSHIPS WITH INSTITUTIONS

PROS:
• Helps build relationships with institutions
• Once MOU/DSA is established, should be easy to get data
• Low-cost

CONS:
• Ugh, who likes legalese?
• Incomplete picture of whole graduating class
• Doesn’t scale well
DIRECT RELATIONSHIPS WITH INSTITUTIONS

• Set up relationships directly where you have the largest pipeline
• Start with the registrar’s office, but admissions may be a good champion
• The shape of your matriculation pattern/pipeline matters a lot here e.g.,

GOOD FIT

BAD FIT

Resources:
• How to Set Up Data-Sharing Agreements with Partners
• Family Education Rights and Privacy Act (FERPA)
“LUCK OF THE DRAW”: STATE DATA PORTALS

PROS:
• Usually free
• State data staff often available for research requests
• Aligned with state accountability models
• “When they’re good, they’re great”

CONS:
• Vary widely in functionality from state to state
• Sometimes only school-level data available, inflexible
• Often omit enrollments to private institutions
• Data lags
• Navigating state education agency websites often unintuitive
STATE DATA PORTALS

• States increasingly have data portals (see also: “state longitudinal data systems” or “SLDS”) that include postsecondary outcomes data

• The quality, usability, and contents of these vary pretty widely

• On the public-facing side, usually consists of a menu of reports, interactive tables and dashboards, etc. available at the district and school levels, which makes for easy benchmarking/comparison to other districts and schools

• Some, but not all, SLDS have user logins for viewing student-level data

Postsecondary Continuation Rate
Postsecondary enrollment rates provide information about students who graduate with a standard high school diploma (graduation cohort) and who then enroll in postsecondary education within the first academic year following their high school graduation.

Students who enroll in both Florida public and Florida private postsecondary education within the specified timeframe are represented only once in any Florida postsecondary enrollment.

Governor’s Office of Student Achievement
WAIT...

THERE’S GOT TO BE A CATCH, RIGHT?

NONE OF THESE OPTIONS SEEMS ALL THAT GREAT?
“THE LEARNING CURVE PAYS OFF”: NSC STUDENT TRACKER

PROS:
• Most comprehensive college enrollment data available
• Timely, flexible, longitudinal
• Affordable for the quality of the data
• Comes with a packet of pre-constructed reports
• Version 3.0 forthcoming will be much more user-friendly

CONS:
• More expensive than the other options discussed here ($595/high school/year)
• Steep learning curve
• Not really “plug and play”
DO YOU CURRENTLY HAVE ACCESS TO NSC DATA?
WHAT IS THE NATIONAL STUDENT CLEARINGHOUSE?

• 501(c)6 serving 3,600+ colleges and universities that enroll over 98% of all students in public and private U.S. institutions.

• Collects enrollment and completion data for students from all of these postsecondary institutions.

• Offers the StudentTracker service, which allows high schools and education outreach organizations to obtain data about students’ postsecondary outcomes.

• StudentTracker for High School is a vital tool:
  • Set baselines for enrollment, persistence, and completion
  • Measure changes to these outcomes
  • Provides national benchmarks against which we can compare our outcomes
HOW STUDENT TRACKER WORKS

1. You submit a file of the student cohorts you want to study
2. They run your file against their national student record database
3. Matches are compiled in a StudentTracker report
4. They email you when your report is ready for retrieval from your secure Clearinghouse account
WHEN DO STUDENTS STOP OUT?

Class of 2013 Postsecondary Enrollment and Progress

- 2013-14: 39.6% Graduated, 33.9% Returned After Stop Out, 14.7% New to College, 32.8% No Longer Enrolled & Not Graduated, 1.4% Not in NSC to Date
- 2014-15: 41.4% Graduated, 29.4% Returned After Stop Out, 11.4% New to College, 30.1% No Longer Enrolled & Not Graduated, 1.2% Not in NSC to Date
- 2015-16: 42.3% Graduated, 28.1% Returned After Stop Out, 9.8% New to College, 27.8% No Longer Enrolled & Not Graduated, 1.6% Not in NSC to Date
- 2016-17: 43.4% Graduated, 27.1% Returned After Stop Out, 8.8% New to College, 28.5% No Longer Enrolled & Not Graduated, 1.4% Not in NSC to Date
- 2017-18: 44.3% Graduated, 26.4% Returned After Stop Out, 7.8% New to College, 28.6% No Longer Enrolled & Not Graduated, 1.2% Not in NSC to Date
- 2018-19: 45.1% Graduated, 25.5% Returned After Stop Out, 6.9% New to College, 26.5% No Longer Enrolled & Not Graduated, 1.1% Not in NSC to Date
- 2019-20: 46.2% Graduated, 24.7% Returned After Stop Out, 6.3% New to College, 25.7% No Longer Enrolled & Not Graduated, 1.0% Not in NSC to Date

Class of 2015 Postsecondary Enrollment and Progress

- 2013-14: 59.6% Graduated, 46.9% Returned After Stop Out, 14.7% New to College, 22.4% No Longer Enrolled & Not Graduated, 2.0% Not in NSC to Date
- 2014-15: 62.4% Graduated, 43.2% Returned After Stop Out, 12.5% New to College, 24.5% No Longer Enrolled & Not Graduated, 2.0% Not in NSC to Date
- 2015-16: 64.2% Graduated, 40.8% Returned After Stop Out, 10.2% New to College, 24.5% No Longer Enrolled & Not Graduated, 1.6% Not in NSC to Date
- 2016-17: 65.1% Graduated, 38.4% Returned After Stop Out, 8.1% New to College, 23.4% No Longer Enrolled & Not Graduated, 1.4% Not in NSC to Date
- 2017-18: 66.2% Graduated, 36.1% Returned After Stop Out, 6.6% New to College, 22.4% No Longer Enrolled & Not Graduated, 1.2% Not in NSC to Date
- 2018-19: 67.3% Graduated, 34.5% Returned After Stop Out, 5.7% New to College, 21.6% No Longer Enrolled & Not Graduated, 1.0% Not in NSC to Date
- 2019-20: 68.2% Graduated, 32.4% Returned After Stop Out, 5.1% New to College, 20.4% No Longer Enrolled & Not Graduated, 0.9% Not in NSC to Date

Class of 2020 Postsecondary Enrollment and Progress

- 2015-16: 48.0% Graduated, 36.2% Returned After Stop Out, 6.5% New to College, 11.9% No Longer Enrolled & Not Graduated, 3.1% Not in NSC to Date
- 2016-17: 49.1% Graduated, 34.2% Returned After Stop Out, 6.8% New to College, 11.3% No Longer Enrolled & Not Gradated, 3.1% Not in NSC to Date
- 2017-18: 50.2% Graduated, 32.3% Returned After Stop Out, 7.1% New to College, 10.7% No Longer Enrolled & Not Graduated, 2.0% Not in NSC to Date
- 2018-19: 51.3% Graduated, 30.7% Returned After Stop Out, 7.1% New to College, 9.5% No Longer Enrolled & Not Graduated, 1.5% Not in NSC to Date
- 2019-20: 52.4% Graduated, 29.1% Returned After Stop Out, 6.6% New to College, 8.4% No Longer Enrolled & Not Graduated, 1.0% Not in NSC to Date
- 2020-21: 53.5% Graduated, 27.7% Returned After Stop Out, 6.1% New to College, 7.5% No Longer Enrolled & Not Graduated, 0.9% Not in NSC to Date

This one is more complicated. It contains a row for every enrollment for every student. This can make it tough to work with, but the payoff is worth it!

PARTING THOUGHTS

• Rome wasn’t built in a day. Collecting some data and building from there is better than not collecting any data.

• There will always be more questions to answer. That doesn’t invalidate the questions you can answer.

• This deck isn’t a sales pitch for the NSC, but we think it is the most comprehensive look at classes, especially over time.

• NCAN will hopefully be doing some work with states about the best ways they can share postsecondary enrollment data, so stay tuned.
PARTING THOUGHTS

• Re: connecting data to changing postsecondary advising practice. That’s a BIG topic, and I’m happy to come back to talk about it more.

• NCAN primarily supports the use of enrollment data to drive counseling/programming practices with an emphasis on fit and match advising.
  • Where have students gone?
  • How successful have they been there?
  • How have the above varied by student demographics?
  • How can patterns in past classes inform successful moves for future classes?
QUESTIONS? COMMENTS?
